

# Satin finishing tool

## Satifix® F

Satin finishing folding ring. The folding ring is normally used in several pieces next to each other as a roller (mounted using side flanges). As a result of this and the folding, a special, seamless finish is achieved on larger widths. Fleece qualities A 80 (coarse) to A 280 (very fine) or S100 (medium) – S800 (ultra fine).

For use with which machine:
