

Satin finishing tool

Satifix® KZ

Satin finishing wheel with standard 25 mm bore, direct mounting on the shaft, for almost all materials, but particularly suitable for achieving fine, mat surfaces on stainless steel, combined design with alternating non-woven and abrasive cloth flaps, resulting in a coarser finish and higher chip removal. Nonwoven qualities A 80 (coarse) to A 280 (very fine), intermediate layers P 40-P 320.

Prices see Satifix® K +15%

Other qualities, dimensions and bore holes on request.
