ORIGINAL-KEMPER®-Sanding Star

Important Note

You have decided to use the ORIGINAL-KEMPER®-Sanding Star for shaped surfaces. In order to achieve the optimum result it is necessary to use at least 3 pieces assembled besides each other and to brush-up these 3 sanding stars before initial use. For brushing up you can let run the stars over an edge of hard wood, stone or metal sheet for few times.

Please note the recommendations of the optimum speed as below:

100 mm Ø =	1400 Rpm	250 mm Ø =	600 Rpm
150 mm Ø =	1100 Rpm	300 mm Ø =	500 Rpm
200 mm Ø =	750 Rpm	350 mm Ø =	450 Rpm

Only the above speed indications achieves the best results of ORIGINAL-KEMPER®-Sanding Star.
